

Evans 14% Alpaca Maintenance Kiblet

Product Description

Evans 14% Alpaca Maintenance Kiblet is an apple flavored pellet designed to provide a balance of protein, energy and fiber to mature alpacas with excellent acceptance and palatability.

Features and *Benefits*

High Fiber Level - A combination of quality fiber sources *provides highly digestible and fermentable fibers to help maintain a healthy digestive environment.*

Chelated Trace Minerals - Optimum levels and ratios are supplied *to ensure a balanced diet for maintenance and performance.* The more biologically available chelated forms are added *to help minimize the detrimental effects of mineral imbalances in water and forages.*

Vitamin E and Selenium - A high level of Vitamin E and Selenium is added *to help guard against deficiencies and maintain optimal health and metabolism.*

B Complex Vitamins (including Biotin, Niacin, and Thiamin) - B vitamins are involved in the metabolism of carbohydrates, fat and protein and *are important for the growth and health of skin, wool, and hooves.*

Yeast Culture - A high level of yeast culture is added *to help promote a functional microbial fermentation, sustaining nutrient digestibility and utilization with fewer digestive problems.*

Feeding Directions

Female Alpaca: Feed at a rate of 0.50 lb per 100 lb of body weight per head per day or approximately 0.75 lb per average 150 lb alpaca per head per day. For late gestation (last four weeks) and lactation, feed Evans Camelid S/G/L Kiblet.

Evans 14% Alpaca Maintenance Kiblet

For alpacas and llamas.

GUARANTEED ANALYSIS

Crude Protein, min.	14.0%
Crude Fat, min.	3.0%
Crude Fiber, max.	15.0%
Calcium (Ca), min.	2.4%
Calcium (Ca), max.	2.9%
Phosphorus (P), min.	2.2%
Salt (NaCl), min.	0.85%
Salt (NaCl), max.	1.35%
Copper (Cu), min.	45 ppm
Selenium (Se), min.	1.45 ppm
Zinc (Zn), min.	1,075 ppm
Vitamin A, min.	27,000 IU/lb
Vitamin D ₃ , min.	8,600 IU/lb
Vitamin E, min.	450 IU/lb

INGREDIENTS

Soybean Hulls, Wheat Middlings, Soybean Meal, Monocalcium Phosphate, Dicalcium Phosphate, Cane Molasses, Yeast Culture, Vegetable Oil, Calcium Carbonate, Sodium Bicarbonate, Corn Distillers Dried Grains, Salt, Ground Corn, DL-Methionine, Magnesium Oxide, Sulfur, Zinc Oxide, Zinc Sulfate, Zinc Proteinate, Manganese Oxide, Manganese Sulfate, Manganese Proteinate, Calcium Iodate, Cobalt Carbonate, Cobalt Sulfate, Cobalt Proteinate, Copper Sulfate, Copper Proteinate, Ethylenediamine Dihydrochloride, Iron Proteinate, Ferrrous Sulfate, Sodium Selenite, Biotin, Riboflavin, d-Calcium Pantothenate, Niacin, Choline Chloride, Vitamin B12 Supplement, Folic Acid, Thiamine Mononitrate, Pyridoxine Hydrochloride, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Menadione Dimethylpyrimidinol Bisulfite (source of Vitamin K Activity), L-Ascorbyl-2-Polyphosphate, Dried Saccharomyces Cerevisiae Fermentation Extract, Dried Aspergillus Oryzae Fermentation Extract, Calcium Sulfate, Mineral Oil, Propionic Acid, Sodium Hydroxide, Calcium Hydroxide, Sorbic Acid, Benzoic Acid, Artificial and Natural Flavoring.

1

Male Alpaca: Males and geldings usually require 20% to 26% less supplement.

Feed at a rate of 0.65 to 0.75 lb per head per day.

For periods of extreme cold, the added energy and feeding rates of Evans Camelid S/G/L Kiblet formula is recommended.

The suggested feeding program is intended solely as a guide. The variables of management, environment, and breed may dictate changes in the animals' requirements.

This feed contains supplemental copper.

DO NOT FEED TO SHEEP.
