

# Goat Mineral

## Product Description

A mineral to be used in either pasture or drylot for goats.

## Features and Benefits

Rain Cote® process **can reduce loss of valuable livestock minerals and vitamins that are exposed to weather.**

Rain Cote® weather proofing process **reduces “bricking up” in wet weather and it reduces dust to help prevent valuable minerals and vitamins from blowing away in the wind.**

Phosphorus, monocalcium and dicalcium phosphate: **Readily available sources of phosphorus for goats.**

Sodium selenite: **To provide a nutritional source of selenium.**

High vitamin fortification: **Vitally important to the overall health, growth and reproductive performance.**

## Feeding Directions

Free-choice Goat Mineral in a dry, clean, fresh area to goats on pasture or in drylot. Recommended intake of Goat Mineral is 1/2 to 3/4 ounce per head per day depending on the size of goats and quality of pasture or roughage.

**Caution: Do not feed to pygmy goats or sheep due to their copper sensitivity.**

## Goat Mineral

A mineral for goats on pasture or in drylot.

### GUARANTEED ANALYSIS

Calcium (Ca), min. ....	16.2%
Calcium (Ca), max. ....	19.4%
