

PN Mixer 500

Product Description

The PN Mixer 500 program offers a convenient, economical way for a producer to use corn and soybean meal, to make a high quality grind and mix starter. PN Mixer 500 diets can be fed to pigs weighing from 15 pounds to 40 pounds. For pigs weighing less than 15 pounds at weaning, feed Kent SAV-R-IZED™ Mini Nuggets™ or SAV-R-IZED Easy Wean® Nuggets from 10 to 14 days and then switch to PN Mixer 500 diet.

Features and *Benefits*

A low inclusion rate **allows maximum use of the producer's home grown corn.**

Simple diets using only corn (and oats, if desired) and PN Mixer 500 **allows for simple on-farm mixing.**

Optimum nutrient levels: The nutrient balance of final diets, containing either 22% or 20% crude protein, **allows the producer to match the proper diet to the size of pig being fed.** Adequate levels of milk products, highly digestible protein sources, vitamins, and trace elements are included at the correct levels to allow optimum pig performance.

PN Mixer 500 contains cheese whey, a blend of dried cheese powders and lactose. **This "all dairy" ingredient offers a natural cheese taste and aroma with excellent palatability. Cheese whey is a high quality ingredient that provides higher fat and energy levels compared to other whey sources.**

Flexible medication program: **The medication of choice can be added using GM® MED I-KENT® Concentrates or GM® Protector® Paks.**

PN Mixer 500

A supplement for pig starting feed.

GUARANTEED ANALYSIS

48% soybean meal	375	335
PN Mixer 500	500	400
Total, lb	<u>2000</u>	<u>2000</u>
Protein, %	22	20

Do not add additional copper to the above diets.

NOTE: To medicate in the above diets, substitute the desired medication by one of the following methods.

1. GM® Med-I-Kent® Concentrates

Substitute the desired GM Med-I-Kent Concentrate pound-for-pound for PN Mixer 500.

2. GM Protector® Paks

Substitute the desired GM Protector Pak pound-for-pound for corn.

Feeding Directions

Feed Kent SAV-R-IZED® Mini Nuggets or SAV-R-IZED Easy Wean Nuggets to pigs weighing less than 15 pounds at weaning. Feed PN Mixer 500 diets as sole feed to swine.

PN Mixer 500 contains Micro-Aid® as an aid in control of manure and/or ammonia odor.

Micro-Aid is a registered trademark of Distributors Processing Inc.
