

15 Lamb DQ18

Product Description

A complete pelleted ration that can be fed to lambs from creep to market.

Features and Benefits

Complete pelleted feed: Less waste; palatable.

15% protein-energy balance: Best rate of gain and results for meaty lambs.

Decoquinat (Deccox®): For the prevention of coccidiosis in sheep maintained in confinement.

Vitamin A: Healthier tissues, helps prevent secondary infections such as colds, pneumonia, etc.

Vitamin D: Aids in assimilation of minerals. Aids in prevention of swollen joints, staggering gait and rickets.

Vitamin E, Selenium (Sodium selenite): Vitamin E and Selenium work together to help prevent White Muscle (stiff lamb) disease.

Ammonium chloride: Helps prevent urinary calculi.

No added copper: Helps to prevent copper toxicity.

Sodium molybdate: A trace mineral that is interrelated with the activity of copper which reduces the risk of copper toxicity.

Feeding Directions

Feed 15 Lamb DQ18 beginning at 40 pounds to market weight. If lambs are not accustomed to feed, work them up gradually to a full feed.

For prevention of coccidiosis in lambs feed Kent 15 Lamb DQ18 at
